Explore, Play, and Learn Together!

My visit to KidsQuest Children’s Museum.
Today I am going to KidsQuest Children’s Museum.

When we walk inside, my grown-up will go to the front desk to check in. I can get a hand stamp if I want to!
The Climber

I will see a big climber at the museum. There are two climbers, one that goes up to the ceiling and one that does not. The blue entrance is for the big climber, and the orange is for the little climber. If I get scared, I can ask a staff member for help.
**Water**

I will see the water gallery. Sometimes it is a little noisy, so I can ask my grown up to go somewhere else if I need to. There are smocks to help keep me dry, but it is okay if I get wet!

---

**Sticks and Stones**

Behind water, I will see an outdoor space. There are big blocks to build with, and instruments to play.
On-the-Go

I will see On-the-Go, an exhibit with a giant semi-truck I can drive! There is a conveyer belt I can use to ship boxes, and carts to move them around. The boxes make a loud sound when they fall. I can ask my grown-up to go to another area if it is too loud.
When I am ready to go upstairs, I can use the stairs or the elevator if I need to. Next to the elevator, I can see how tall I am!
Upstairs, I will see a big open space with an activity out. I will be able to play with a train table, and build with blocks!
I will see the Tot Orchard, which is an area for smaller kids. I can go inside if I am careful of the babies on the floor.
I will see the story tree. I can climb up, read books and play with puppets. Underneath, I can read books or try on costumes!
The Mercantile

I will see the Mercantile up stairs, which is like an old time grocery store. I can buy fruits and other foods, weigh them out, and wash a cow!
The Art Studio is a quiet space where I can play with clay and do other art activities. I can take home the paper projects I create.
When I am at KidsQuest, I will:

- Use my walking feet
- Tell my grown-up where I am going
- Ask a staff member if I need help
- Have fun!
