

Love of learning starts here.

Program Partnership Highlight

For National Children's Dental Health Month in February, KidsQuest partnered with the Seattle-King County Dental Society & Foundation to provide dental programming at the Museum.

- 400 Dental Kit Giveaways
- 60 volunteer hours
- 29 volunteer shifts
- 966 people benefited from dental health programs
- 66 children received free oral exams

We were honored to partner with the Seattle-King County Dental Society & Foundation to benefit over 950 community members!

KidsQuest Kindness Corner

KidsQuest Staff share stories to brighten your day!

"After receiving a thoughtful birthday/thank you card from their [KidsQuest] party host, a parent shared with me that the child really appreciated it and carried the card around with her for a whole week!"

"While squeegeeing Water a little boy said hi and so cheerfully said "Thank you for keeping this place safe and clean to play!" completely unprompted! So sweet!"

Thinking Beyond
THE LADDER KidsQuest

Did you know KidsQuest isn't just for kids? We host a creative business breakfast fundraiser! The event features a panel of local professional leaders diving into a topic that will inspire employers and employees alike. Join us for a conversation around hiring practices, increasing retention, and celebrating sustainability.

When: Friday, June 3rd, 2022

Time: 7:00am – 9:00am

Where: Hilton Bellevue Grand Ballroom

KidsQuest Donor Newsletter

Volume 1 | Issue 1 | Spring 2022

Have you seen KidsQuest's 2021 Impact Report?

After being closed for almost a year, KidsQuest re-opened in February 2021 to bring crucial educational resources back to children in our community. Take a look at our Impact Report to see what was accomplished in 2021.

Behind the Scenes with KidsQuest's Education Department

KidsQuest is excited to share that we have installed our own **Bumblebee Observation Hive** as part of our Mercantile exhibit. Our Facilities & Exhibits Manager, Chris, built the Observation Hive where the bees can enter and exit from outside the building. From inside the Museum, families are able to see the bees working to take care of eggs, build honeycomb, and cohabitate. We are working with a local beekeeper, Peter Nolte from Rainy Day Bees, as our bee expert to help us maintain the hive.

We are so excited to share this with the community!
